QUALITATIVE FEEDBACK

What topic/issue has been the most important for you?

Understanding process(times 2) and group stages; here and now phases, application of here and now , great to be in a group to practice and reflect ; application of here and now concepts and process to a wide variety of groups; working in the small groups was most effective, the experiential groups

What topic has been the least important to you? Nothing really, N/A, nothing, nil

What impact will this training have on your work?

Beneficial, I have a vision on how this works and how to use it; helped me to value even more the positive impact of sitting in the here and now; greater focus on the ways in which here and now concepts can be framed in setting up the group; will inform all aspects of practice even if not directly related to practice of the here and now; a great deal of impact both on facilitation and supervision

Any other comments about the training course?

Great day, thank you, thank you IGL and Adam, great morning and afternoon tea
